Hi Erin,

I've actually been doing almost exclusively front end web development in recent years. But I can still take on some design work. My design software is not really up to date though. It may not matter depending on what you need. I'm open.  
Thanks.

Good Morning, Mike!

Thanks for getting back to me.

Can you send me a quote for the following?

We are getting preparing our strategy for the "I AM AAA" campaign launch and wanted to see if we can get a quote for a template for our social media posts. We would like to post on both Facebook and Instagram and are looking to have a template where we can insert a photo and the individuals quote. The deadline for this would be June 1.

Additionally, we would like a quote for a large postcard (6 x 11, 4/4) that we will mail out to members and leads in the fall. The design will be a small replica of the "I AM AAA" ad with a 2018 calendar of events incorporated on either the front or back. The deadline for this would be August 1.

Thank you!

Erin
